FYI: Why Android's Snapchat App Takes Inferior Photos - Gadget Hacks

The reason behind this is that Snapchat doesn't actually take photos on an Android device—instead, it basically grabs a screenshot of your camera's live video feed. This is not a limitation of Android, and it's not a matter of the iPhone having better hardware. It's because Snapchat's development team takes the easy way out instead of coding ...

## Aptoide for Android - Download

All you need to do is download the apk file, copy it to your device, and tap it to install. Admittedly, though, you'll have to tackle your phone's security settings. Once the installation is through, enter the app, and you'll see the most popular current pieces of software on the homepage. Then use the browse option to search for what you want to see free of charge. The interface is intuitive - everything ...
